

TOPCALF GROUP HUTCH EASY-CLEAN

As with the other products in the Easy-clean product line, the focus is on work efficiency. The Topcalf group hutch Easy-clean has the same product features as the standard group hutch and can also be cleaned very quickly and easily. This mobile calf hutch can be moved from the front, using a loader. In addition, the underside of the back can be folded up, which makes mucking out quick and efficient. In addition, the panel at the top of the back can be moved up and down. In this way, the calf hutch can be provided with new bedding and the climate in the calf hutch can be easily controlled.

Like the standard version, the Easy-clean group hutch also has an insulated roof and can also be lifted from the front using a loader. The calf hutch is equipped as standard with a palisade feed fence, lighting, electricity connection, water connection and plastic grids at the front of the calf hutch. Optionally, the group hutch easy-clean can be equipped with a sliding door and free range.
